## **Independent Auditor's Report**

To the Board of Trustees  
Redford Township District Library

### **Opinions**

We have audited the financial statements of the governmental activities and each major fund of Redford Township District Library (the "Library") as of and for the year ended March 31, 2022 and the related notes to the financial statements, which collectively comprise the Library's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Library as of March 31, 2022 and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Library and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Trustees  
Redford Township District Library

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Library's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Library's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplemental Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplemental information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Plante & Moran, PLLC*

July 19, 2022

Our discussion and analysis of Redford Township District Library's (the "Library") financial performance provides an overview of the Library's financial activities for the fiscal year ended March 31, 2022. Please read it in conjunction with the Library's financial statements.

### **Using This Annual Report**

This annual report consists of a series of financial statements. The statement of net position and the statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. This longer-term view uses the accrual basis of accounting so that it can measure the cost of providing services during the current year and whether the taxpayers have funded the full cost of providing government services.

The fund financial statements present a short-term view; they tell the reader how the taxpayers' resources were spent during the year, as well as how much is available for future spending. Fund financial statements also report the Library's operations in more detail than the government-wide financial statements by providing information about the Library's most significant funds.

### **The Library's Net Position**

The following table shows, in a condensed format, the Library's net position as of March 31, 2022 and 2021:

	2022	2021
<b>Assets</b>		
Current assets	\$ 4,627,098	\$ 5,504,165
Capital assets	7,261,218	6,523,303
Total assets	11,888,316	12,027,468
<b>Deferred Outflows of Resources</b>	110,064	134,830
<b>Liabilities</b>		
Current liabilities	854,940	933,849
Noncurrent liabilities	215,755	1,319,567
Total liabilities	1,070,695	2,253,416
<b>Deferred Inflows of Resources</b>	628,410	473,877
<b>Net Position</b>		
Net investment in capital assets	6,651,218	5,318,303
Restricted - Debt service	721,473	674,075
Unrestricted	2,926,584	3,442,627
Total net position	<b>\$ 10,299,275</b>	<b>\$ 9,435,005</b>

The Library's net position increased approximately 9.2 percent from a year ago, increasing from approximately \$9.4 million to \$10.3 million. The increase in net position is primarily due to decreases in the net pension liability and OPEB liability from favorable investment earnings and other changes.

# Redford Township District Library

## Management's Discussion and Analysis (Continued)

### **The Library's Changes in Net Position**

The following table shows the change in net position during the fiscal years ended March 31, 2022 and 2021:

	2022	2021
<b>Revenue</b>		
Tax levy	\$ 2,596,806	\$ 2,485,875
Penal fines	31,401	39,676
Intergovernmental:		
State aid	41,944	38,718
Other state sources	247,338	140,189
Service fees	33,656	3,906
Investment (loss) earnings	(1,797)	6,162
Miscellaneous	45,068	56,811
<b>Total revenue</b>	<b>2,994,416</b>	<b>2,771,337</b>
<b>Expenditures</b>		
Personnel	1,160,857	1,271,004
Contractual services and books	232,077	198,846
Operating costs	298,421	313,315
Capital outlay	-	14,393
Depreciation	424,024	394,429
Debt service	14,767	27,304
<b>Total expenditures</b>	<b>2,130,146</b>	<b>2,219,291</b>
<b>Change in Net Position</b>	<b>864,270</b>	<b>552,046</b>
<b>Net Position - Beginning of year</b>	<b>9,435,005</b>	<b>8,882,959</b>
<b>Net Position - End of year</b>	<b>\$ 10,299,275</b>	<b>\$ 9,435,005</b>

The Library's total revenue increased by approximately \$223,000 in the current year, primarily as a result of an increase in tax revenue. Total expenditures decreased \$89,145.

### **The Library's Funds**

Our analysis of the Library's major funds follows the government-wide financial statements. The fund financial statements provide detailed information about the most significant funds, not the Library as a whole. The library board creates funds to help manage money for specific purposes, as well as to show accountability for certain activities, such as the property tax millage for the 2002 bond issuance. The Library's major funds for 2022 consisted of the General Fund and the Debt Service Fund.

### **General Fund Budgetary Highlights**

Over the course of the year, the Library amended the budget to continue placing an emphasis on lowering pension liabilities by making an additional \$550,000 contribution to the MERS Retirement Fund. This contribution allowed the Library to fully fund pension liabilities based on most recent actuarial data.

### **Capital Assets and Debt Administration**

During the year, the Library purchased equipment, furniture, and new items for the library collection. The library building was constructed with the proceeds received from the issuance of \$8.5 million in 2002 Library Building and Site Bonds, which was refunded in 2012 by issuing \$5,425,000 in bonds with an interest rate range of 1.5 percent to 2.25 percent and retiring the 2002 Library Building and Site Bonds. The outstanding balance on the bonds was \$610,000 on March 31, 2022.

#### ***Economic Factors and Next Year's Budgets and Rates***

The Library continues to monitor expenditures and makes every effort to ensure that it is meeting public needs. On August 2, 2022, the Library will be asking for residents of Redford to continue the support of the Library with a 2.0000 mill request. This replaces a 1.4000 mill operating millage and 0.6600 debt millage that lapsed in 2021. Without this millage, the Library's revenue will decrease by over 50 percent and impact our ability to serve the community. Library services that would be reduced or eliminated include hours of operation, the number of books and other materials purchased, digital subscriptions, computer maintenance, events for all ages, and reference assistance. If approved, residents will see a reduction in mills levied compared to 2021, and the secured funding will allow the Library to move forward with renovations to the Library. This includes completing the second floor where 18,000 square feet has remained unfinished since the Library was built in 2004. Renovations would include creating a new space for kids, additional study rooms for all ages, expanded teen space, and more.

The phase-in of state minimum wage planned increases in late 2014 and annually from 2016 through 2030 will have ripple effects on the Library's salary schedule as pay grades are adjusted across the board. The January 1, 2022 planned increase did go into effect per Michigan's Improved Workforce Opportunity Wage Act. Management will continue to monitor the effect that future planned increases will have on the Library's salary schedule. A comprehensive wage study will be taking place in 2022 to look at any necessary wage adjustments in light of recent inflation reaching historic highs. Continued periods of high inflation could have a negative impact on the Library's financial position beyond wages.

#### ***Requests for Further Information***

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the Library's finances and demonstrate the Library's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the library director's office.

<b>Net Position - Beginning of year</b>	<u>533,467</u>
<b>Net Position - End of year</b>	<u><u>\$ 592,060</u></u>

**Note 1 - Significant Accounting Policies**

Redford Township District Library (the "Library") is located in Redford Township, Michigan. The Library is funded primarily through a tax levy, fines, and fees. Revenue is used to operate and staff the Library. The following is a summary of the significant accounting policies used by Redford Township District Library:

***Reporting Entity***

The Library is governed by an appointed seven-member board of trustees. The accompanying basic financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting unit. Based on these criteria, there are no component units of the Library that are to be included in the reporting entity.

***Retiree Health Care Plan***

The Retiree Health Care Plan is a trust governed by the Library that provides other postemployment benefits to eligible employees of the Library. Although it is legally separate from the Library, it is reported as a fiduciary component unit because the Library maintains operational control and the plan imposes a financial burden on the Library.

***Accounting and Reporting Principles***

The Library follows accounting principles generally accepted in the United States of America (GAAP), as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board.

***Report Presentation***

Governmental accounting principles require that financial reports include two different perspectives - the government-wide perspective and the fund-based perspective. The individual fund columns present their activities on the modified accrual basis of accounting, as discussed above, which demonstrates accountability for how the current resources have been spent. The government-wide columns are presented on the economic resources measurement focus and the full accrual basis of accounting in order to measure the cost of providing government services and the extent to which constituents have paid the full cost of government services.

On the full accrual basis of accounting, revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

***Fund Accounting***

The Library accounts for its various activities in the General Fund and Debt Service Fund in order to demonstrate accountability for how it spends certain resources; separate funds allow the Library to show the particular expenditures for which specific revenue is used. The Library reports the following funds as major governmental funds:

- The General Fund is the primary operating fund because it accounts for all financial resources used to provide the Library's services. General Fund activities are financed by revenue from two general property tax millages, state aid, and other sources.
- The Debt Service Fund is used to account for the annual payments of principal, interest, and expenses in connection with the 2002 Building and Site Bonds that were refunded in 2012. Debt Service Fund activities are financed by revenue from a property tax millage that expires in 2021.

Note 1 - Significant Accounting Policies (Continued)

Fiduciary Funds

Fiduciary funds include amounts held in a fiduciary capacity for others. These amounts are not used to operate the Library's programs. Activities that are reported as fiduciary include the following:

- The Retiree Health Care Plan, which accumulates resources for future retiree health care payments to retirees

**Basis of Accounting**

The governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the Library has spent its resources.

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures (rather than as capital assets) because they reduce the ability to spend resources in the future; conversely, employee benefit costs that will be funded in the future (such as pension and retiree health care-related costs or sick and vacation pay) are not counted until they come due for payment. In addition, debt service expenditures, claims, and judgments are recorded only when payment is due.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For this purpose, the Library considers amounts collected within 60 days of year end to be available for recognition. The following major revenue sources meet the availability criterion: state aid, state penal fines, property taxes, and interest associated with the current fiscal period.

**Specific Balances and Transactions**

Cash and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

Capital Assets

Capital assets, which include property, furniture and equipment, library books, and videos, are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the Library as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following useful lives:

Capital Asset Class	Depreciable Life - Years
Buildings	50
Furniture and equipment	5 - 15
Library books and AV materials	2 - 10

**Note 1 - Significant Accounting Policies (Continued)**

**Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed at the time they are incurred. In the fund financial statements, governmental fund types recognize bond issuances and premiums as other financing sources and bond discounts as other financing uses. The Debt Service Fund is generally used to liquidate governmental long-term debt.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then. The Library has two items that qualify for reporting in this category: deferred outflows of resources related to pensions and deferred outflows of resources related to OPEB.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The Library has three items that qualify for reporting in this category: the deferred inflows of resources related to delinquent property taxes, deferred inflows of resources related to pension, and deferred inflows of resources related to OPEB. Property taxes are shown as deferred inflows of resources on the governmental funds balance sheet.

**Net Position**

Net position of the Library is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

**Net Position Flow Assumption**

The Library will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements (as applicable), a flow assumption must be made about the order in which the resources are considered to be applied. It is the Library's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

**Fund Balance Flow Assumptions**

The Library will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Library's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

**Note 1 - Significant Accounting Policies (Continued)**

**Fund Balance Policies**

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Library itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Library's highest level of decision-making authority. The board of trustees is the highest level of decision-making authority for the Library that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The library board has, by resolution, authorized the library director to assign fund balance. The board of trustees may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist only temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

**Property Tax Revenue**

Property taxes receivable are shown net of allowance for uncollectible amounts, if deemed necessary. Properties are assessed as of December 31 and become a lien on December 1 of the following year. Related property taxes are billed on July 1 and December 1 of the following year. These taxes are due on September 15 and February 14, with the final collection date of February 28 before they are added to the Wayne County, Michigan tax rolls.

The Library's 2022 property tax revenue was levied and collectible on December 1, 2021 and is recognized as revenue in the year ended March 31, 2022 when the proceeds of the levy are budgeted and available for the financing of operations.

The 2021 taxable valuation of the Library totaled approximately \$924 million (a portion of which is captured by the Redford Township Brownfield), on which taxes levied consisted of 2.2620 mills for operating purposes and 0.6600 mills for debt service. This resulted in approximately \$2,005,000 for operating and approximately \$616,000 for debt service. These amounts are recognized in the respective General Fund and Debt Service Fund financial statements as tax revenue.

**Pension**

The Library offers a defined benefit pension plan to its employees. The Library records a net pension liability for the difference between the total pension liability calculated by the actuary and the pension plan's fiduciary net position. For the purpose of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plan, and additions to/deductions from the pension plan's fiduciary net position have been determined on the same basis as they are reported by the pension plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability will be liquidated from the funds of the General Fund.

**Note 1 - Significant Accounting Policies (Continued)**

**Other Postemployment Benefit Costs**

The Library offers retiree health care benefits to retirees. The Library records a net OPEB liability for the difference between the total OPEB liability calculated by the actuary and the OPEB plan's fiduciary net position. For the purpose of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position and additions to/deductions from the OPEB plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net OPEB liability will be liquidated from the funds of the General Fund.

**Compensated Absences (Vacation and Sick Leave)**

It is the Library's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. All vacation and sick pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end.

Compensated absences attributable to the governmental activities will be liquidated by the General Fund. Claims and judgment liabilities, if applicable, will be liquidated through the General Fund.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**Upcoming Accounting Pronouncements**

In June 2017, the Governmental Accounting Standards Board issued Statement No. 87, *Leases*, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Library is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement were originally effective for the Library's financial statements for the year ended March 31, 2021 but were extended to March 31, 2023 with the issuance of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*.

In May 2020, the Governmental Accounting Standards Board issued Statement No. 96, *Subscription-Based Information Technology Arrangements (SBITAs)*, which defines SBITAs and provides accounting and financial reporting for SBITAs by governments. This statement requires a government to recognize a subscription liability and an intangible right-to-use subscription asset for SBITAs. The Library is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the Library's financial statements for the year ending March 31, 2024.

**Note 1 - Significant Accounting Policies (Continued)**

In June 2020, the Governmental Accounting Standards Board issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. While this standard had certain aspects impacting defined contribution pension and OPEB plans and other employee benefit plans that were effective immediately, it also clarifies when a 457 should be considered a pension plan or another employee benefit plan to assist in the application of GASB Statement No. 84 to these types of plans. The Library is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement related to 457 plans are effective for the Library's financial statements for the year ending March 31, 2023.

**Note 2 - Stewardship, Compliance, and Accountability**

***Budgetary Information***

The annual budget is prepared by the director and the library board and adopted by the library board; subsequent amendments are approved by the library board. Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund. All annual appropriations lapse at fiscal year end. The budget document presents information by fund and function). The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders or contracts) are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered. During the year, the Library did not have expenditure budget variances.

**Note 3 - Deposits and Investments**

Deposits and investments are reported in the financial statements as follows:

	<u>Governmental Activities</u>
Cash	\$ 2,647,119
Investments - U.S. Treasury bills	<u>1,394,372</u>
Total cash and investments	<u>\$ 4,041,491</u>

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The law also allows investments outside the state of Michigan when fully insured. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications that matures no more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions that are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Retiree Health Care Plan is also authorized by Michigan Public Act 314 of 1965, as amended, to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate (if the trust fund's assets exceed \$250 million), debt or equity of certain small businesses, certain state and local government obligations, and certain other specified investment vehicles.

**Note 3 - Deposits and Investments (Continued)**

The Library has designated four banks for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CDs but not the remainder of state statutory authority, as listed above. The Library's deposits and investments are in accordance with statutory authority.

The Library's cash and investments are subject to several types of risk, which are examined in more detail below:

**Custodial Credit Risk of Bank Deposits**

Custodial credit risk is the risk that, in the event of a bank failure, the Library's deposits may not be returned to it. At year end, the Library had bank deposits of \$2,361,713 (checking and savings accounts) that were uninsured and uncollateralized. The Library believes that, due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Library evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories. U.S Treasury bills and bank investment pools are not insured.

**Interest Rate Risk**

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Library's investment policy does not restrict investment maturities other than commercial paper, which can only be purchased with a 270-day maturity.

At year end, the Library had the following investments and maturities:

Investment	Less Than 1 Year	1-5 Years	More Than 5 Years
U.S. Treasury bills	\$ 1,394,372	\$ -	\$ -

**Credit Risk**

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Library has no investment policy that would further limit its investment choices. As of March 31, 2022, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Fair Value	Rating	Rating Organization
U.S. Treasury bills	\$ 1,394,372	Not rated	N/A

**Fair Value Measurements**

The Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy. The Library's investment in the MERS Total Market Portfolio (\$592,060) is valued at net asset value. At March 31, 2022, there were no unfunded commitments or redemption restrictions.

**March 31, 2022**

**Note 3 - Deposits and Investments (Continued)**

The MERS Total Market Portfolio is a fully diversified portfolio combining traditional stocks and bonds with alternative asset classes, including real estate, private equity, and commodities. The objective is to provide current income and capital appreciation while minimizing the volatility of the capital markets. The Municipal Employees' Retirement System (MERS) manages the asset allocation and monitors the underlying investment managers.

**Note 4 - Interfund Receivables, Payables, and Transfers**

The composition of interfund balances at March 31, 2022 is as follows:

Receivable Fund	Payable Fund	Amount
Debt Service Fund	General Fund	\$ 627,932

This balance results from the time lag between the recording of the transaction in the accounting system and the actual payments being made between funds.

**Note 5 - Capital Assets**

Capital asset activity of the Library's governmental activities was as follows:

**Governmental Activities**

	Balance April 1, 2021	Additions	Disposals	Balance March 31, 2022
Capital assets not being depreciated:				
Land	\$ 325,000	\$ -	\$ -	\$ 325,000
Construction in progress	49,240	817,367	-	866,607
Capital assets being depreciated:				
Building	7,877,026	-	-	7,877,026
Furniture and equipment	1,887,959	205,839	-	2,093,798
Library books and audiovisual materials	3,777,130	138,733	(177,068)	3,738,795
Subtotal	13,542,115	344,572	(177,068)	13,709,619
Accumulated depreciation:				
Building	2,677,115	157,541	-	2,834,656
Furniture and equipment	1,397,032	117,410	-	1,514,442
Library books and audiovisual materials	3,318,905	149,073	(177,068)	3,290,910
Subtotal	7,393,052	424,024	(177,068)	7,640,008
Net capital assets being depreciated	6,149,063	(79,452)	-	6,069,611
Net governmental activities capital assets	<u>\$ 6,523,303</u>	<u>\$ 737,915</u>	<u>\$ -</u>	<u>\$ 7,261,218</u>

**Construction Commitments**

The Library has active construction projects at year end. The projects include the patio, drive through, circulation, and AMH project. At year end, the Library's commitments with contractors are as follows:

	Spent to Date	Remaining Commitment
Patio, drive through, circulation, and AMH	<u>\$ 750,302</u>	<u>\$ 221,885</u>

March 31, 2022

**Note 6 - Long-term Debt**

The Library issued bonds to provide for the acquisition and construction of a library facility. Long-term debt activity for the year ended March 31, 2022 can be summarized as follows:

**Governmental Activities**

	Interest Rate Ranges	Principal Maturity Ranges	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Bonds payable - Other debt - 2012 Library Refunding Bonds (unlimited tax general obligation) original issue of \$5,425,000 maturing through 2023	2.0% - 2.25%	\$610,000	\$ 1,205,000	\$ -	\$ (595,000)	\$ 610,000	\$ 610,000
Compensated absences			96,407	9,991	(26,911)	79,487	23,310
Total governmental activities long- term debt			<u>\$ 1,301,407</u>	<u>\$ 9,991</u>	<u>\$ (621,911)</u>	<u>\$ 689,487</u>	<u>\$ 633,310</u>

The compensated absences represent the estimated liability to be paid to employees under the Library's paid time off policy. Under the Library's policy, employees earn paid time off based on time of service with the Library.

**Debt Service Requirements to Maturity**

Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

Year Ending March 31	Governmental Activities		
	Other Debt		Total
	Principal	Interest	
2023	\$ 610,000	\$ 6,863	\$ 616,863

**Note 7 - Fund Balance Constraints**

The detail of the various components of fund balance is as follows:

	General Fund	Debt Service Fund	Total
Restricted for debt service	\$ -	\$ 692,017	\$ 692,017
Assigned:			
Property tax float	1,555,000	-	1,555,000
Capital improvements and replacements	1,000,000	-	1,000,000
Library construction	450,000	-	450,000
Total assigned	3,005,000	-	3,005,000
Unassigned	139,686	-	139,686
Total fund balance	<u>\$ 3,144,686</u>	<u>\$ 692,017</u>	<u>\$ 3,836,703</u>

The property tax float assignment represents approximately 75 percent of the taxes levied in December 2021 to fund library operations from January 2022 to December 2022 until taxes are collected next year.

Capital improvements and replacements are assignments to fund the estimated future capital outlay needs of the Library.

**Note 7 - Fund Balance Constraints (Continued)**

The library construction assignment will fund the costs associated with various construction projects at the Library.

Unassigned fund balance has not been assigned for a specific purpose at this time, but management is in the process of evaluating several potential uses.

**Note 8 - Risk Management**

The Library is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Library has purchased commercial insurance to cover these risks. Settled claims related to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

**Note 9 - Agent-defined Benefit Pension Plan**

***Plan Description***

The Library participates in an agent multiple-employer defined benefit pension plan administered by the Municipal Employees' Retirement System of Michigan. MERS was established as a statewide public employee pension plan by the Michigan Legislature under PA 135 of 1945 and is administered by a nine-member retirement board. MERS issues a publicly available financial report that includes the financial statements and required supplemental information of this defined benefit plan. This report can be obtained at [www.mersofmich.com](http://www.mersofmich.com) or in writing to MERS at 1134 Municipal Way, Lansing, MI 48917. The plan was closed to new hires after July 1, 2016.

***Benefits Provided***

The plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. PA 427 of 1984, as amended, established and amends the benefit provisions of the participants in MERS.

Retirement benefits for employees are calculated as 2.5 percent of the employee's final 3-year average salary times the employee's years of service. Normal retirement age is 60, with early reduced retirement age at 50 with 25 years of experience or 55 with 20 years of service. The vesting period is 6 years. Employees are eligible for duty and nonduty disability benefits and duty and nonduty death benefits. Duty disability retirement benefits are determined as the greater of the standard benefit formula or 25 percent of the final average compensation. There are no vesting requirements. Nonduty disability benefits are calculated using the standard benefit formula. The member must be vested. Duty-related death benefits are determined as the greater of the standard benefit formula or 25 percent of the final average compensation. There are no vesting requirements. Non-duty-related death benefits are calculated as 85 percent of the defined benefit formula. The member must be vested. All disability and death benefits are payable immediately without actuarial reduction.

There are no annual cost of living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. Benefit terms, within the parameters established by MERS, are generally established and amended by authority of the library board.

***Employees Covered by Benefit Terms***

At the December 31, 2021 measurement date, the following members were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	9
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	6
	<hr/>
Total employees covered by the plan	18
	<hr/> <hr/>

**Note 9 - Agent-defined Benefit Pension Plan (Continued)**

**Contributions**

Article 9, Section 24 of the State of Michigan constitution requires that financial benefits arising on account of employee service rendered in each year be funded during that year. Accordingly, MERS retains an independent actuary to determine the annual contribution. The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS retirement board. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees.

The annual required contribution was \$91,236 for the fiscal year ended March 31, 2022. During the year, the Library contributed \$671,164.

**Net Pension Asset**

The Library has chosen to use the December 31 measurement date as its measurement date for the net pension asset. The March 31, 2022 fiscal year end reported net pension liability was determined using a measure of the total pension liability and the pension net position as of the December 31, 2021 measurement date. The December 31, 2021 measurement date total pension liability was determined by an actuarial valuation performed as of that date.

Changes in the net pension liability (asset) during the measurement year were as follows:

Changes in Net Pension Liability (Asset)	Increase (Decrease)		
	Total Pension Liability	Plan Net Position	Net Pension Liability (Asset)
<b>Balance at December 31, 2020</b>	\$ 3,602,595	\$ 3,205,588	\$ 397,007
Changes for the year:			
Service cost	43,122	-	43,122
Interest	268,484	-	268,484
Differences between expected and actual experience	(91,212)	-	(91,212)
Changes in assumptions	128,435	-	128,435
Contributions - Employer	-	666,508	(666,508)
Net investment income	-	462,857	(462,857)
Benefit payments, including refunds	(182,933)	(182,933)	-
Administrative expenses	-	(5,287)	5,287
<b>Net changes</b>	<b>165,896</b>	<b>941,145</b>	<b>(775,249)</b>
<b>Balance at December 31, 2021</b>	<b>\$ 3,768,491</b>	<b>\$ 4,146,733</b>	<b>\$ (378,242)</b>

The plan's fiduciary net position represents 110.0 percent of the total pension liability.

**Note 9 - Agent-defined Benefit Pension Plan (Continued)**

***Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

For the year ended March 31, 2022, the Library recognized pension expense of \$105,573. At March 31, 2022, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 45,606
Changes in assumptions	64,218	-
Net difference between projected and actual earnings on pension plan investments	-	236,240
Employer contributions to the plan subsequent to the measurement date	30,291	-
Total	\$ 94,509	\$ 281,846

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows. These amounts are exclusive of the employer contributions of \$30,291 made to the plan subsequent to the measurement date, which will impact the net pension liability in fiscal year 2022 rather than pension expense.

Years Ending March 31	Amount
2023	\$ (14,673)
2024	(95,190)
2025	(67,554)
2026	(40,211)
Total	\$ (217,628)

***Actuarial Assumptions***

The total pension liability in the December 31, 2021 actuarial valuation was determined using an inflation assumption of 2.5 percent, assumed salary increases (including inflation) of 3.00 percent, and an investment rate of return (net of investment expenses) of 7.00 percent. Mortality rates were based on a 50 percent male - 50 percent female blend of the Pub-2010 fully generational MP-2019 scale.

***Discount Rate***

The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that library contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Note 9 - Agent-defined Benefit Pension Plan (Continued)**

**Investment Rate of Return**

The long-term expected rate of return on pension plan investments was determined using a model in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return (after subtracting a 2.5 percent inflation assumption) as of the December 31, 2021 measurement date, for each major asset class, are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global equity	60.00 %	4.50 %
Global fixed income	20.00	2.00
Private assets	20.00	7.00

**Sensitivity of the Net Pension Asset to Changes in the Discount Rate**

The following presents the net pension asset of the Library, calculated using the discount rate of 7.25 percent, as well as what the Library's net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease (6.25%)	Current Discount Rate (7.25%)	1 Percentage Point Increase (8.25%)
Net pension liability (asset) of the Library	\$ 34,783	\$ (378,242)	\$ (728,996)

**Pension Plan Fiduciary Net Position**

Detailed information about the plan's fiduciary net position is available in the separately issued financial report. For the purpose of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the plan's fiduciary net position and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the plan. The plan uses the economic resources measurement focus and the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments and refunds of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

**Assumption Changes**

The assumed rate of investment return decreased from 7.35 to 7.0 percent.

**Note 10 - Other Postemployment Benefit Plan**

**Plan Description**

The Library provides retiree health care benefits to all full-time employees hired before April 1, 2016 in accordance with current library policy; however, the board reserves the right to change or withdraw that benefit at any time. This is a single-employer defined benefit plan administered by the Municipal Employees' Retirement System of Michigan. MERS issues a publicly available financial report that includes financial statements and required information for MERS. That report may be obtained by writing to MERS at 1134 Municipal Way, Lansing, MI 48917.

March 31, 2022

**Note 10 - Other Postemployment Benefit Plan (Continued)**

**Benefits Provided**

From April 1, 2019 to May 31, 2019, the plan provided medical, dental, and vision coverage benefits to eligible retirees and their spouses. Effective June 1, 2019, the plan provides a stipend to eligible retirees and their spouses to be used for retiree health care. The stipend provided for pre-65 retirees and post-65 retirees is \$714 per month and \$276 per month, respectively. The benefits provided are subject to board approval on an annual basis. As of April 1, 2016, the plan was closed to new entrants.

**Employees Covered by Benefit Terms**

At the March 31, 2022 measurement date, the following members were covered by the benefit terms:

Date of member count	March 31, 2022
Inactive plan members or beneficiaries currently receiving benefits	3
Active plan members	<u>6</u>
Total plan members	<u><u>9</u></u>

**Contributions**

The Library provides a stipend amount to retirees to be used for retiree health care. The Library has no obligation to make contributions in advance of when the insurance premiums are due for payment. In the current year, the Library paid postemployment health care premiums and stipends of \$16,040, plus it contributed \$30,000 into a prefunded retiree health care fund. Employees are not required to contribute to the plan.

**Net OPEB Liability**

The Library has chosen to use the March 31 measurement date as its measurement date for the net OPEB liability. The March 31, 2022 fiscal year end reported net OPEB liability was determined using a measure of the total OPEB liability and the OPEB net position as of the March 31, 2022 measurement date. The March 31, 2022 measurement date total OPEB liability was determined by an actuarial valuation as of March 31, 2022.

Changes in the net OPEB liability during the measurement year were as follows:

Changes in Net OPEB Liability	Increase (Decrease)		
	Total OPEB Liability	Plan Net Position	Net OPEB Liability
<b>Balance at April 1, 2021</b>	\$ 776,531	\$ 533,467	\$ 243,064
Changes for the year:			
Service cost	18,953	-	18,953
Interest	57,879	-	57,879
Differences between expected and actual experience	(87,345)	-	(87,345)
Changes in assumptions	1,660	-	1,660
Contributions - Employer	-	46,040	(46,040)
Net investment income	-	29,681	(29,681)
Benefit payments, including refunds	(16,040)	(16,040)	-
Administrative expenses	-	(1,088)	1,088
Net changes	<u>(24,893)</u>	<u>58,593</u>	<u>(83,486)</u>
<b>Balance at March 31, 2022</b>	<u><u>\$ 751,638</u></u>	<u><u>\$ 592,060</u></u>	<u><u>\$ 159,578</u></u>

The plan's fiduciary net position represents 78.8 percent of the total OPEB liability.

**Note 10 - Other Postemployment Benefit Plan (Continued)**

***OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

For the year ended March 31, 2022, the Library recognized OPEB recovery of \$67,805. At March 31, 2022, the Library reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ 290,111
Changes in assumptions	15,555	25,072
Net difference between projected and actual earnings on OPEB plan investments	-	31,381
	<u>-</u>	<u>31,381</u>
Total	<u>\$ 15,555</u>	<u>\$ 346,564</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending March 31	Amount
2023	\$ (105,452)
2024	(109,998)
2025	(96,361)
2026	(18,182)
2027	(1,016)
	<u>(1,016)</u>
Total	<u>\$ (331,009)</u>

***Actuarial Assumptions***

The total OPEB liability in the March 31, 2022 actuarial valuation was determined using an inflation assumption of 2.5 percent; assumed salary increases of 3.0 percent; an investment rate of return (net of investment expenses) of 7.35 percent (including inflation); and the Public General 2010 Employee and Healthy Retiree, headcount weighted with MP-2021 improvement factors mortality table. For pre-65 medical benefits, a health care cost trend rate of 7.25 percent graded down to 4.5 percent by 0.25 percent per year was used. For post-Medicare medical benefits, a health care cost trend rate of 5.50 percent graded down to 4.5 percent by 0.25 percent per year was used. These assumptions were applied to all periods included in the measurement.

***Discount Rate***

The discount rate used to measure the total OPEB liability was 7.35 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that library contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate.

Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

**Note 10 - Other Postemployment Benefit Plan (Continued)**

**Investment Rate of Return**

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation. Best estimates of arithmetic real rates of return as of the March 31, 2022 measurement date for each major asset class included in the OPEB plan's target asset allocation, as disclosed in the investment footnote, are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Global equity	60.00 %	4.95 %
Global fixed income	20.00	2.40
Private assets	20.00	7.00

**Rate of Return**

For the year ended March 31, 2022, the annual money-weighted rate of return on OPEB plan investments, net of OPEB plan investment expense, was 5.22 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Sensitivity of the Net OPEB Liability to Changes in the Discount Rate**

The following presents the net OPEB liability of the Library, calculated using the discount rate of 7.35 percent, as well as what the Library's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease (6.35%)	Current Discount Rate (7.35%)	1 Percentage Point Increase (8.35%)
Net OPEB liability of the Library	\$ 246,508	\$ 159,578	\$ 86,271

**Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate**

The following presents the net OPEB liability of the Library, calculated using the health care cost trend rate, as well as what the Library's net OPEB liability would be if it were calculated using a health care cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease	Current Health Care Cost Trend Rate	1 Percentage Point Increase
Net OPEB liability of the Library	\$ 74,114	\$ 159,578	\$ 263,160

**Assumption Changes**

Health care trend rates changed for pre-65 Medicare medical benefits to 7.25 percent graded down to 4.5 percent by 0.25 percent per year. Post-Medicare medical benefits of 5.50 percent graded down to 4.5 percent by 0.25 percent per year. The mortality tables were updated to the 2010 Public General Employees and Healthy Retirees, headcount weighted with MP-2021 improvement scale.

**Note 11 - Retirement Plans**

The Library provides pension benefits to all of its full-time employees hired after July 1, 2016 through a defined contribution pension plan administered by Alerus Financial. The plan provides for the Library to make a matching contribution up to 6.5 percent of employee contributions. Employer contributions to the plan totaled \$9,512 for the year ended March 31, 2022.

**Note 12 - Reconciliation of the Library as a Whole and the Governmental Fund Financial Statements**

Total fund balances and the net change in fund balances of the Library's individual funds differ from net position and change in net position of the Library as a whole reported in the statements of net position and activities. This difference results primarily from the long-term economic focus of the statements of net position and activities versus the current focus of the statement of the individual governmental funds' balance sheet and statement of revenue, expenditures, and changes in fund balances. The following is a reconciliation of fund balances to net position:

<b>Fund Balances Reported in Governmental Funds</b>	\$ 3,836,703
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the funds	7,261,218
Property tax revenue not collected within 60 days of year end is recorded as a deferred inflow of resources in the funds	196,242
Bonds payable are not due and payable in the current period and are not reported in the funds	(610,000)
Accrued interest is not due and payable in the current period and is not reported in the funds	(5,719)
Employee compensated absences are payable over a long period of years and do not represent a claim on current financial resources; therefore, they are not reported as fund liabilities	(79,487)
Net pension asset does not represent a claim on current financial resources. Therefore, it is not reported as a fund liability	378,242
Deferred inflows related to pension are not a financial resource and are not reported in the funds	(281,846)
Deferred outflows related to pension are not a financial resource and are not reported in the funds	94,509
Net OPEB liability does not represent a claim on current financial resources. Therefore, it is not reported as a fund liability	(159,578)
Deferred inflows related to OPEB are not a financial resource and are not reported in the funds	(346,564)
Deferred outflows related to OPEB are not a financial resource and are not reported in the funds	15,555
<b>Net Position of Governmental Activities</b>	<u><u>\$ 10,299,275</u></u>

**March 31, 2022**

**Note 12 - Reconciliation of the Library as a Whole and the Governmental Fund  
Financial Statements (Continued)**

The change in net position reported in the statement of activities column is different than the change in fund balances reported in the individual fund columns because of the different measurement focus and basis of accounting, as discussed in Note 1. Below is a reconciliation of the differences:

<b>Net Change in Fund Balances Reported in Governmental Funds</b>	<b>\$ (1,145,570)</b>
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation:	
Library books and audiovisual materials	138,733
Capital outlay	1,023,206
Depreciation expense	(424,024)
Revenue is recorded in the statement of activities when earned; it is not reported in the funds until collected or collectible within 60 days of year end	(24,637)
Repayment of bond principal is an expenditure in the fund financial statements but not in the statement of activities	595,000
Change in accrued interest payable	5,206
Some employee costs (pension, OPEB, and compensated absences) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds	378,242
Decrease in the accrual for compensated absences is reported as revenue in the fund financial statements but not in the statement of activities	16,920
Increase in net pension asset reported in the statement of activities does not require the use of current resources; therefore, it is not reported in the fund statements until it comes due for payment	397,007
Change in deferred inflows related to pension	(188,254)
Change in deferred outflows related to pension	(21,404)
Decrease in net OPEB liability reported in the statement of activities does not require the use of current resources; therefore, it is not reported in the fund statements until it comes due for payment	83,486
Change in deferred inflows related to OPEB	33,721
Change in deferred outflows related to OPEB	(3,362)
<b>Change in Net Position of Governmental Activities</b>	<b>\$ 864,270</b>

**Note 13 - Tax Abatements**

The Library receives reduced property tax revenue as a result of tax abatement agreements granted by the Charter Township of Redford (the "Township"). The tax abatement agreements include the following:

The Township uses the industrial facilities tax exemption (PA 198 of 1974) to enter into agreements with local businesses to construct new industrial facilities or rehabilitate historical facilities. Under the program, the Township grants reductions of 50 percent of the property tax bill for new property (or it can freeze taxable values for rehabilitation properties) for up to 12 years. For the fiscal year ended March 31, 2022, the Library's property tax revenue was reduced by approximately \$21,000 of taxes under this program. There are no provisions to recapture taxes; however, the abatement may be eliminated if taxes are not paid timely.

Additionally, the Brownfield Redevelopment Authority, a discretely presented component unit of the Township, uses brownfield redevelopment agreements under PA 381 of 1996 to reimburse taxpayers that remediate environmental contamination on their properties. As a result of these agreements, the brownfield's tax revenue is reduced. For the fiscal year ended March 31, 2022, the Library's property tax revenue was reduced by approximately \$83,000 of taxes under this program. There are no provisions to recapture taxes. There are no abatements entered into by the Library itself.

#### Notes to Schedule of Pension Contributions

Actuarial valuation information relative to the determination of contributions:

Valuation date Actuarially determined contribution rates are calculated as of December 31 each year, which is three months prior to the beginning of the fiscal year in which the contributions are required.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry-age normal
Amortization method	Level percentage of payroll, closed
Remaining amortization period	14 years
Asset valuation method	5-year smoothed market
Inflation	2.5 percent
Salary increase	3.75 - including inflation
Investment rate of return	7.0 percent
Retirement age	60 years
Mortality	50 percent male - 50 percent female blend of the Pub-2010 fully generational mortality table with scale MP-2019
Other information	None
