

# MARCH 2023

# GARDENING TO DO'S

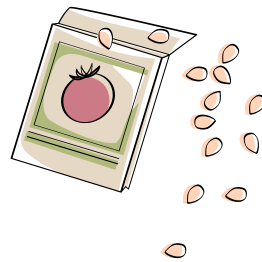

11 days to Daylight Saving  
 19 days until Spring  
 68 days until May 8  
 (Redford's last frost date)

Start indoors so these plants will be ready to transfer outdoors. Be sure to start your seeds under a grow light or near a south facing window.

## Signs of spring:

Snow melting      Birds singing  
 Forsythia blooming      Temperatures warming  
 Robin sightings      Lawn greening

- Herbs (early March)
- Peppers (early March)
- Tomatoes (mid-March)

With the warmer temps, take some *thyme* outdoors and sow these seeds directly in your garden!

Vegetable	Direct Sow	Harvest*	Vegetable	Direct Sow	Harvest*
Arugula	Mar-Sept	Monthly	Onions (bulb)	3/1	7/15
Beets	3/15	6/23-30	Potatoes	3/20	Jul-Aug
Cabbage	3/15	5/15	Radish	3/15	4/20
Carrots	3/15	6/23-30	Snap/Snow Peas	3/10	5/25-6/8
Lettuce	3/15	5/15	Spinach	3/1	4/1-10
Mesclun Mix	3/5	4/20-5/3	Turnips	3/15	5/15

\*Harvest time may vary slightly based on variety. Calendar courtesy of Seed Time.
